Senior Associate

Beschreibung

With a doctoral, Master's or Diploma degree and significant professional experience, as a **Senior Associate** you will get to know a wide range of functional topics that are of central importance to our clients. A practice-oriented coaching and training programme promotes your professional development into a manager with the aim of being able to take on project responsibility yourself after a reasonable amount of time.

Zuständigkeiten / Hauptaufgaben

- Exciting tasks in the mobility and logistics industry
- Familial working atmosphere in small teams, great team spirit and short paths with mutual inspiration and further development across all levels of experience
- Intensive coaching from a consultant colleague and tailor-made training programme
- Attractive compensation compared to competitors

- Partial digital/ remote working from home office (depending on project)

- After 2 years: possibility of financial support for your MBA/ doctoral studies

Qualifikationen / Anforderungen

- Completed doctoral, Master's or Diploma degree
- Significant professional experience in consulting or relevant industry

- Excellent academic achievements

- Interest and enthusiasm for the mobility and logistics industry

- Very good command of German and English
